As the CEO and founder of Diamond Bay Investments Inc., Jordan Wirsz leads his company with empowered vision. Diamond Bay is a private investment lending firm that utilizes investors in the private sector to fund real estate secured loans across the nation, including commercial, retail and land acquisition, and development loans ranging from \$500,000 to \$10 million or more. Many of Las Vegas' developers and land acquisition companies have found Diamond Bay to be a resource for the growth of the Las Vegas Valley. Wirsz has grown his company more than 200 percent in the past year's ongoing construction projects. Raised in Las Vegas, he began his career as a project estimator for Dawson Construction, a large contractor in Southern California, and returned to Las Vegas in 1993 to head Nevada operations for BH Miller Contractors, a California developer. Wirsz is one of the original team that launched TWC in 1997. He holds a bachelor's degree from the University of Nevada.
